

NOZZLE

Ø 13mm

VTE 2510 - Ø13mm

Model: VTE-2510 - Ø13mm

Nozzle for Fire Hose Reel, forest fires and multiple applications. Adjustable Flow Control: Rotating nozzle adjusts spray pattern from full jet to fog. Impact resistance: Rubber bumper that protects the mouthpiece from damage if dropped or dragged. Lightweight: Compact design reduces worker fatigue. Good behavior even in intensive use. Resistant and durable.
