Dry Powder ABC

Portable ABC dry powder fire extinguisher, easy to handle. Include a support and a manometer to check internal pressure.

Bottled in AP04 laminated steel alloy with electrostatic painting without lead or TGIC, making them resistant to ultraviolet radiation.

For 1 and 2 kg ABC dry powder fire extinguishers, it includes a vehicle support which is ideal for use in cars, boats or caravans.

In the case of 6, 9 and 12 kg ABC dry powder fire extinguishers, including black flexible rubber hose with polyamide outer jacket and diffuser tube, these are ideal for use on commercial surfaces or work areas
