ROT DN33

FLEXIBLE CONNECTION HOSE DN33

Flexible connection hose DN33:

- * Flexible hose that allows the connection of the R.I.A. or P.I.A. to the supply pipe.
- * Easier and faster installation than a rigid connection.
- * Flexible hose made of 2 layers with internal metal braid.
- * Hose length 0,8m (without connections).
- * Flexible hose equipped with brass connections pressed into aluminium capsules.
- * Flexible DN33: Includes a 1" 1/2 female gas thread swivel fitting on each end.
- * Each hose includes 2 fiber gaskets for sealing.
- * Minimum bending radius: 0,4 m to 0,45 m.
- * No change in hydraulic performance.
- * Pressure limit non-destruction resistance (PLSD).

technical features

CHARACTERISTICS	DN 33
Article code	08000254
Hose lenght	850 mm
Weight	1,6 Kg
Connection	Female 1" 1/2 gas on each end
Burst pressure	17,5 bar
